

Roles and teamwork

1. Building the app

In order to be as efficient as possible we have separated ourselves into small groups, each with its own responsibilities. Thus, we have formed these groups:

- Boca Bogdan and Catalin Slavinschi were responsible for building the GUI and all the client-side logic
 - the two worked well together. They helped one another out all the time and separated their responsibility between them really well. Bogdan took on the PCMember and (Co)Chair use-cases while Catalin build all the functionalities for the smaller use-cases (log in, author, speaker)
- Barcan Florin and Batincu Daniel were responsible for everything related to the server
 - These two worked on together by respecting the following principle: “Facem asa? Facem asa sefu’!”. This means that they could easily separate the tasks between themselves and encountered very few problems. They communicated very well and had little to no misunderstandings.
- Banu Andrei built the networking module
 - he also helped us understand how to use this module, how requests should work and what modules each of the other two teams should use.
- Balinth Andrei – as the team leader, I supervised the 3 parts and helped out with whatever information they needed either for understanding the CMS, a certain subsystem or just with debugging

2. Building the diagrams

All of us were equally involved in this part. It is worth mentioning that we had to change some of the diagrams after mister Chiorean reviewed our analysis model. You will find below who did which diagram both before and after the review.

Sequence diagrams: Barcan Florin, Batincu Daniel, Balinth Andrei

- after review: Boca Bogdan, Catalin Slavinschi, Balinth Andrei

State machine diagrams: Barcan Florin, Batincu Daniel, Balinth Andrei

Use-case diagram: Balinth Andrei

Class diagram: Batincu Daniel, Barcan Florin

Architecture diagram: Banu Andrei

Database Diagram: Balinth Andrei

GUI diagrams: Boca Bogdan, Catalin Slavinschi, Balinth Andrei

Communication Diagrams: Balinth Andrei

Class diagrams for the design patterns: Balinth Andrei, Boca Bogdan, Banu Andrei

3. Marks

- Batincu Daniel – 10
- Barcan Florin – 10
- Banu Andrei – 10
- Boca Bogdan – 10
- Catalin Slavinski – 10
- Balinth Andrei – 10
